**DEPARTMENT OF THE ARMY PERMIT**

**REGIONAL GENERAL PERMIT SAJ-18**  
**SAJ-2006-1734 (SLS)**

**PRIVATE SINGLE-FAMILY BOAT SLIPS IN FLORIDA**

Upon recommendation of the Chief of Engineers, pursuant to Section 10 of the Rivers and Harbors Act of 1899 (U.S.C. 403), general authority is hereby given to install and maintain private single-family boat slips in navigable waters of the United States within the State of Florida, subject to the following conditions:

**SPECIAL CONDITIONS:**

1. The work authorized herein includes the installation and maintenance of private single-family boat slips (berthing space created primarily through upland excavation/dredging and connection to navigable waters) and appurtenant structures such as bulkheads, catwalks, etc. The appurtenant structures shall not exceed a total of 50 linear feet in either direction of the boat slip.

2. No work shall be performed until the applicant submits satisfactory plans for the proposed structure and receives written authorization from the District Engineer.

3. The following areas are specifically excluded from authorization under SAJ-18:

a. Motorboat prohibited zones, no entry zones, and Federal Manatee Sanctuaries.

b. All areas regulated under the Lake Okeechobee and Okeechobee Waterway Shoreline Management Plan, located between St. Lucie Lock in Martin County and W.P. Franklin Lock in Lee County.

c. Monroe County

d. American Crocodile designated critical habitat, Biscayne Bay National Park Protection Zone (Dade County), St. Lucie Impoundment (Palm Beach County), and areas identified in the Wild and Scenic Rivers Act (16 U.S.C. 1317, et seq.): the St. Mary's River, from its headwaters to its confluence with the Bells River, the entire

Wekiva River, including Wekiwa Springs Run, Rock Springs Run, the entire Seminole Creek, and Black Water Creek from its outfall at Lake Norris to its confluence with the Wekiva River, the Loxahatchee River from Riverbend Park downstream to Jonathan Dickinson State Park.

e. The following state parks: John Pennekamp Coral Reef State Park, Lignum Vitae Key State Botanical Site and Aquatic Preserve, Long Key State Park, Curry Hammock State Park, and Bahia Honda State Park.

f. Canals in the Kings Bay/Crystal River/Homosassa/Salt River system (Citrus County); canals at Garfield Point including Queens Cove (St. Lucie County).

4. No structures shall be authorized by SAJ-18 within the boundaries of the Timucuan Ecological and Historical Preserve (Duval County) until the National Park Service has been contacted and offered the opportunity to submit comments to the Corps on the effects of the proposed project on the preserve.

5. Dimensions of the boat slip shall not exceed 50 linear feet in either direction and the depth of the boat slip shall not exceed the outlying control contours of the water body or in no case be greater than -5 feet mean low water.

6. The amount of dredged material shall not exceed 200 cubic yards for new work. Maintenance dredging of up to 50 cubic yards of material per year from existing boat slips is authorized. Disposal of dredged material shall conform to the criteria stated in Special Conditions below.

7. Excavated spoil material shall be deposited at self-contained upland areas that will prevent spoil material and/or return water from reentering any water of the United States or interfering with natural drainage.

8. Dredged material shall not be placed in adjacent waters or wetlands. Wetlands are those areas that are inundated or saturated by surface or ground water at a frequency and duration sufficient to support, and that under normal circumstances do support, a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas.

9. Prior to verification of authorization, the dichotomous key titled "The Corps of Engineers, Jacksonville District, and the State of Florida Effect Determination Key for the Manatee in Florida, July 2005", (see [http://www.saj.usace.army.mil/permit/Endangered\\_Species/end\\_species\\_index.htm](http://www.saj.usace.army.mil/permit/Endangered_Species/end_species_index.htm)) will be used to determine potential manatee impacts. Those determined to be a "may affect" to the manatee will not be authorized until consultation on the project has been concluded with the U.S. Fish and Wildlife Service in accordance with the Endangered Species Act. Additionally, depending on the location of the project, some projects determined to be "may affect, not likely to adversely affect" will not be authorized until consultation on the project has been concluded. *Note: The manatee key may be*

*subject to revision at any time. It is our intention that the most recent version of this technical tool will be utilized during the evaluation of the permit application.*

10. For projects in waters accessible to manatees, the permittee will utilize the "Standard Manatee Conditions for In-Water Work, July 2005" (see [http://www.saj.usace.army.mil/permit/Endangered\\_Species/end\\_species\\_index.htm](http://www.saj.usace.army.mil/permit/Endangered_Species/end_species_index.htm)) and/or requirements, as appropriate for the proposed activity. *Note: The manatee conditions may be subject to revision at any time. It is our intention that the most recent version of these conditions will be utilized during the evaluation of the permit application.*

11. For projects in waters accessible to sea turtles, Smalltooth sawfish, Gulf sturgeon, or Shortnose sturgeon, the permittee will utilize the "Sea Turtle and Smalltooth Sawfish Construction Conditions" (see [http://www.saj.usace.army.mil/permit/Endangered\\_Species/end\\_species\\_index.htm](http://www.saj.usace.army.mil/permit/Endangered_Species/end_species_index.htm)) and/or requirements, as appropriate for the proposed activity. *Note: These conditions may be subject to revision at any time. It is our intention that the most recent version of these conditions will be utilized during the evaluation of the permit application.*

12. In accordance with Section 7 of the Endangered Species Act, projects proposed within the following areas cannot be authorized until consultation on the project has been concluded with the U.S. Fish and Wildlife Service and/or the National Marine Fisheries Service, as appropriate: within (below MHW or OHW) Gulf sturgeon designated critical habitat (see [http://www.saj.usace.army.mil/permit/Endangered\\_Species/end\\_species\\_index.htm](http://www.saj.usace.army.mil/permit/Endangered_Species/end_species_index.htm)); within (below MHW) Johnson's seagrass designated critical habitat (see [http://www.saj.usace.army.mil/permit/Endangered\\_Species/end\\_species\\_index.htm](http://www.saj.usace.army.mil/permit/Endangered_Species/end_species_index.htm)); or within the following rivers, creeks, and their tributaries: Escambia River, Yellow River, Choctawhatchee River, Chipola River, Apalachicola River, Ochlockonee River, and Econfinia Creek (all in the Florida panhandle), and the Suwannee River.

13. This permit has undergone consultation with U.S. Fish and Wildlife Service (FWS) and the National Marine Fisheries Service (NMFS) on the listed species and any designated critical habitat listed on Table 1 (attached). If the proposed activity requires additional Section 7 consultation under the Endangered Species Act with the FWS and/or NMFS on: 1) these or any other Federally listed threatened or endangered species or a species proposed for such designation; or 2) designated critical habitat for these or any other Federally listed threatened or endangered species or habitat proposed to be designated as critical habitat for any Federally listed threatened or endangered species, until consultation is concluded, the proposed activity cannot be authorized under SAJ-18.

14. Boat slips that require dredging of wetlands areas will not be authorized under this regional general permit. No work shall be authorized by SAJ-18 which may have direct or indirect adverse effects on hard or soft corals, estuarine emergent, marine emergent, and/or the following species of submerged aquatic vegetation: shoal

grass (*Halodule wrightii*), paddle grass (*Halophila decipiens*), star grass (*Halophila engelmannii*), Johnson's seagrass (*Halophila johnsonii*), sago pondweed (*Potamogeton pectinatus*), clasping-leaved pondweed (*Potamogeton perfoliatus*), widgeon grass (*Ruppia maritima*), manatee grass (*Syringodium filiforme*), turtle grass (*Thalassia testudinum*), tapegrass (*Vallisneria Americana*), horned pondweed (*Zannichellia palustris*), and eel grass (*Zostera marina*). Indirect effects include secondary and cumulative effects. In addition, the project cannot have adverse effects on any other essential fish habitat.

15. Turbidity controls measures may be required, and the work must be conducted so as to prevent violations of State Water Quality Standards as established in sections 62-4.242 and 62-4.244 of the Florida Administrative Code and Chapters 62-302, 62-520, 62-522, and 62-550 of the Florida Administrative Code.

16. Prior to the initiation of any construction, projects qualifying for this regional general permit must be authorized by the applicable permit required under Part IV of Chapter 373, F.S., by the Department of Environmental Protection, a water management district under s. 373.069, F.S., or a local government with delegated authority under s. 373.441, F.S., and receive Water Quality Certification (WQC) and applicable Coastal Zone Consistency Concurrence (CZCC) or waiver thereto, as well as any authorizations required for the use of state-owned submerged lands under Chapter 253, F.S., and, as applicable, Chapter 258, F.S.

17. Construction of canals or access channels is specifically excluded from this authorization.

18. No work shall be performed until after the permittee has provided notification to the owner(s) or operator(s) of any marked utilities in the area.

19. No structure or work shall adversely affect or disturb properties listed in the *National Register of Historic Places* or those eligible for inclusion in the National Register.

If unexpected cultural resources are encountered at any time within the project area that was not the subject of a previous cultural resource assessment survey, work should cease in the immediate vicinity of such discoveries. The permittee, or other party, should notify the SHPO immediately, as well as the appropriate Army Corps of Engineers office. After such notifications, project activities should not resume without verbal and/or written authorization from the SHPO.

If unmarked human remains are encountered, all work shall stop immediately, and the proper authorities notified in accordance with Section 872.05, *Florida Statutes*, unless on Federal lands. After such notifications, project activities on non-Federal lands shall not resume without verbal and/or written authorization from the Florida State Archaeologist for finds under his or her jurisdiction.

20. For projects proposed adjacent to Federally-maintained channels, no boat slip authorized under this regional general permit shall be within the established setback. The setback is normally 100' in the various Intracoastal Waterways but may vary in a few specific reaches as well as in other Federal channels. Exact locations of the proposed structures relative to the channel may need to be verified by use of the Florida State Plane (x, y) Coordinate System, calculated from the near-bottom edge of the Federal channel. Any activity within Federal rights-of-way will require the permittee to enter into an consent-to-easement with the Real Estate Division, U.S. Army Corps of Engineers, Jacksonville or Mobile District, as appropriate, prior to the commencement of any construction activity.

21. For projects authorized under the SAJ-18 in navigable waters of the United States, the permittee understands and agrees that, if future operations by the United States require the removal, relocation, or other alteration, of the structures or work herein authorized, or if, in the opinion of the Secretary of the Army or his authorized representative, said structure or work shall cause unreasonable obstruction to the free navigation of the navigable waters, the permittee will be required, upon due notice from the Corps of Engineers, to remove, relocate, or alter the structural work or obstructions caused thereby, without expense to the United States. No claim shall be made against the United States on account of any such removal or alteration.

22. Conformance with the descriptions and criteria contained herein does not necessarily guarantee authorization under this regional general permit. The District Engineer reserves the right to require that any request for authorization under this regional general permit be processed as a standard permit.

23. This regional general permit will be valid for a period of five years from the date specified above unless suspended or revoked by the District Engineer prior to that date. If SAJ-18 expires or is revoked prior to completion of the authorized work, authorization of activities that have commenced or are under contract to commence in reliance on SAJ-18 will remain in effect provided the activity is completed within 12 months of the date SAJ-18 expired or was revoked.

24. The permittee shall perform all work in accordance with the general conditions for permits. The general conditions attached hereto are made a part of this permit.

BY AUTHORITY OF THE SECRETARY OF THE ARMY:

*for*   
Paul E. Grosskruger  
Colonel, U.S. Army  
District Engineer

## **GENERAL CONDITIONS FOR DEPARTMENT OF THE ARMY REGIONAL GENERAL PERMITS**

### **General Conditions**

1. The time limit for completing the work authorized ends on \_\_\_\_\_.
2. You must maintain the activity authorized by this permit in good condition and in conformance with the terms and conditions of this permit. You are not relieved of this requirement if you abandon the permitted activity, although you may make a good faith transfer to a third party in compliance with General Condition 4 below. Should you wish to cease to maintain the authorized activity or should you desire to abandon it without a good faith transfer, you must obtain a modification of this permit from this office, which may require restoration of the area.
3. If you discover any previously unknown historic or archeological remains while accomplishing the activity authorized by this permit, you must immediately notify this office of what you have found. We will initiate the Federal and State coordination required to determine if the remains warrant a recovery effort or if the site is eligible for listing in the National Register of Historic Places.
4. If you sell the property associated with this permit, you must obtain the signature and mailing address of the new owner in the space provided below and forward a copy of the permit to this office to validate the transfer of this authorization.
5. You must allow representatives from this office to inspect the authorized activity at any time deemed necessary to ensure that it is being or has been accomplished in accordance with the terms and conditions of your permit.

### **Further Information:**

1. Limits of this authorization.
  - a. This permit does not obviate the need to obtain other Federal, State, or local authorizations required by law.
  - b. This permit does not grant any property rights or exclusive privileges.
  - c. This permit does not authorize any injury to the property or rights of others.
  - d. This permit does not authorize interference with any existing or proposed Federal projects.
2. Limits of Federal Liability. In issuing this permit, the Federal Government does not assume any liability for the following:
  - a. Damages to the permitted project or uses thereof as a result of other permitted or unpermitted activities or from natural causes.
  - b. Damages to the permitted project or uses thereof as a result of current or future activities undertaken by or on behalf of the United States in the public interest.
  - c. Damages to persons, property, or to other permitted or unpermitted activities or structures caused by the activity authorized by this permit.
  - d. Design or construction deficiencies associated with the permitted work.
  - e. Damage claims associated with any future modification, suspension, or revocation of this permit.

3. **Reliance on Applicant's Data:** The determination of this office that issuance of this permit is not contrary to the public interest was made in reliance on the information you provided.

4. **Reevaluation of Permit Decision:** This office may reevaluate its decision on this permit at any time the circumstances warrant. Circumstances that could require a reevaluation include, but are not limited to, the following:

- a. You fail to comply with the terms and conditions of this permit.
- b. The information provided by you in support of your permit application proves to have been false, incomplete, or inaccurate (see 3 above).
- c. Significant new information surfaces which this office did not consider in reaching the original public interest decision.

5. Such a reevaluation may result in a determination that it is appropriate to use the suspension, modification, and revocation procedures contained in 33 CFR 325.7 or enforcement procedures such as those contained in 33 CFR 326.4 and 326.5. The referenced enforcement procedures provide for the issuance of an administrative order requiring you comply with the terms and conditions of your permit and for the initiation of legal action where appropriate. You will be required to pay for any corrective measures ordered by this office, and if you fail to comply with such directive, this office may in certain situations (such as those specified in 33 CFR 209.170) accomplish the corrective measures by contract or otherwise and bill you for the cost.

6. When the structures or work authorized by this permit are still in existence at the time the property is transferred, the terms and conditions of this permit will continue to be binding on the new owner(s) of the property. To validate the transfer of this permit and the associated liabilities associated with compliance with its terms and conditions, have the transferee sign and date below.

NE	FWS	E	Fringe-tree, pygmy ( <i>Chionanthus pygmaeus</i> )
NE	FWS	T	Gooseberry, Miccosukee ( <i>Ribes echinellum</i> )
NE	FWS	E	Gourd, Okeechobee ( <i>Cucurbita okeechobeensis okeechobeensis</i> )
NE	FWS	E	Harebells, Avon Park ( <i>Crotalaria avonensis</i> )
NE	FWS	E	Hypericum, highlands scrub ( <i>Hypericum cumulicola</i> )
NE	FWS	C	Indigo, Florida ( <i>Indigofera mucronata keyensis</i> )
NE	FWS	E	Jacquemontia, beach ( <i>Jacquemontia reclinata</i> )
NE	FWS	E	Lead-plant, Crenulate ( <i>Amorpha crenulata</i> )
NE	FWS	E	Lupine, scrub ( <i>Lupinus aridorum</i> )

NE	FWS	E	Meadowrue, Cooley's ( <i>Thalictrum cooleyi</i> )
NE	FWS	E	Milkpea, Small's ( <i>Galactia smallii</i> )
NE	FWS	E	Mint, Garrett's ( <i>Dicerandra christmanii</i> )
NE	FWS	E	Mint, Lakela's ( <i>Dicerandra immaculata</i> )
NE	FWS	E	Mint, longspurred ( <i>Dicerandra comutissima</i> )
NE	FWS	E	Mint, scrub ( <i>Dicerandra frutescens</i> )
NE	FWS	E	Mustard, Carter's ( <i>Warea carteri</i> )
NE	FWS	E	Pawpaw, beautiful ( <i>Deeringothamnus pulchellus</i> )
NE	FWS	E	Pawpaw, four-petal ( <i>Asimina tetramera</i> )
NE	FWS	E	Pawpaw, Rugel's ( <i>Deeringothamnus rugelii</i> )
NE	FWS	C	Pea, Big Pine partridge ( <i>Chamaecrista lineata keyensis</i> )
NE	FWS	T	Pigeon wings ( <i>Clitoria fragrans</i> )
NE	FWS	E	Pinkroot, gentian ( <i>Spigelia gentianoides</i> )
NE	FWS	E	Plum, scrub ( <i>Prunus geniculata</i> )
NE	FWS	E	Polygala, Lewton's ( <i>Polygala lewtonii</i> )
NE	FWS	E	Polygala, tiny ( <i>Polygala smallii</i> )
NE	FWS	E	Pondberry ( <i>Lindera melissifolia</i> )
NE	FWS	C	Prairie-clover, Florida ( <i>Dalea carthagenensis floridana</i> )
NE	FWS	E	Prickly-apple, fragrant ( <i>Cereus eriophorus fragrans</i> )
NE	FWS	E	Rhododendron, Chapman ( <i>Rhododendron chapmanii</i> )
NE	FWS	E	Rosemary, Apalachicola ( <i>Conradina glabra</i> )
NE	FWS	E	Rosemary, Etonia ( <i>Conradina etonia</i> )
NE	FWS	E	Rosemary, short-leaved ( <i>Conradina brevifolia</i> )
NE	FWS	E	Sandlace ( <i>Polygonella myriophylla</i> )
NE	FWS	C	Sandmat, pineland ( <i>Chamaesyce deltoidea pinetorum</i> )
MANLAA*	NMFS	T	Seagrass, Johnson's ( <i>Halophila johnsonii</i> )
NE	FWS	C	Silverbrush, Blodgett's ( <i>Argythamnia blodgettii</i> )
NE	FWS	T	Skullcap, Florida ( <i>Scutellaria floridana</i> )
NE	FWS	E	Snakeroot ( <i>Eryngium cuneifolium</i> )
NE	FWS	E	Spurge, deltoid ( <i>Chamaesyce deltoidea deltoidea</i> )
NE	FWS	T	Spurge, Garber's ( <i>Chamaesyce garberi</i> )
NE	FWS	T	Spurge, telephus ( <i>Euphorbia telephioides</i> )
NE	FWS	C	Spurge, wedge ( <i>Chamaesyce deltoidea serpyllum</i> )
NE	FWS	C	Thoroughwort, Cape Sable ( <i>Chromolaena frustrata</i> )
NE	FWS	E	Torreya, Florida ( <i>Torreya taxifolia goveniana</i> )
NE	FWS	E	Warea, wide-leaf ( <i>Warea amplexifolia</i> )
NE	FWS	E	Water-willow, Cooley's ( <i>Justicia cooleyi</i> )
NE	FWS	T	Whitlow-wort, papery ( <i>Paronychia chartacea</i> )
NE	FWS	E	Wireweed ( <i>Polygonella basiramia</i> )
NE	FWS	E	Ziziphus, Florida ( <i>Ziziphus celata</i> )

\*Finding also applies to Designated Critical Habitat
